

Business Intelligence Intermediate Key Information

Roberts + Morrow is a progressive BRW top 50 multi-disciplinary **accounting and professional services practice**. We embrace technology and work collaboratively with our in-house specialist teams to meet the needs of our clients right across Australia.

The practice has grown and developed over 70 years to now have 16 partners, over 170 team members and 6 specialist divisions complementing traditional business services.

Job Opportunity!

We have an exciting opportunity to join our Business Intelligence team in Brisbane or Armidale. Under the direct supervision of the Business Intelligence Partner the role will be responsible for the preparation of management reporting, financial analysis, budgeting, forecasting and other special project work. These activities have the end purpose of providing Directors, business owners and management teams with the analysis and advice they require to make better decisions for their businesses.

About You!

Completed a university degree in accounting, business or commerce.

Completed or willingness to complete CA/CPA program.

Knowledge of PowerBi and/or Tableau advantageous but not essential.

Excellent verbal and written communication skills.

Work with us!
We have exciting opportunities for team members

Why Roberts + Morrow?

We recognise our people are integral to the success of our business and we are committed to providing continuous professional development, structured growth, and career progression opportunities in a friendly, team-orientated environment.

Our values of **Integrity, Pride, Diversity, Teamwork** and **Energy** guide our daily operations and we are always excited to hear from individuals who live into our values each day. Come and work with a great team of people and benefits!

- » Regular training and development
- » Study leave and financial support to complete relevant university study and the CA and CPA programs
- » A great team environment with coaching directly from partners and senior staff
- » Ongoing career progression
- » Exposure to a wide variety of clients and work challenges
